stock market has been-irregular, and is wholly con trolled by brokers playing themselves the dangerons role of enstomers. Government securities were steady, and per cent higher on the 10-40s. Missouri bonds rose to el, and were in demand. In railway mortgages the sales were small. The share market was feverish, and upon the registered sales a general decline is shown. North-Western common sold as high as 502, as low as 50, and closed at 514 9514. After the call prices were weaker, and operators for an advance less confident. For the moment, the market lacks outside support and the stimulus of cheap money, and is also damaged in the opinion of investing parties by the serious falling off in the traffic of many prominent roads. The business of no road on the list in 1865 will warrant any increase of dividends, while upon many they will be reduced. Congrees may stultify itself and manufacture paper money so abundantly as to make railroad shares cheap in comparison to the supply of money; but it is a state of things not to be attained in a few weeks, if at all. At the second bard 5-20s, new issue, rose | per cent; 16-10s | and 7.30s |. Ohio and Mississippi Certificates fell ½, North-Western Common rose 3, and Western Union ‡; Quicksilver fell ‡, Eric Railway ‡, Michigan Southern ‡, Eleveland and Pittsburgh ‡, and Rock Island ‡. The interest of the street centers on North-Western Common and the Preferred, the latter closing at 71‡-271‡. Pacific Mail is steady at 190 The last prices were: New-York Central, 1134 2113; Erie, 724 2724; do. Preferred, 84; Reading, 112 21124; Michigan Southern, 82 824; Cleveland and Pittsburgh, 801 # 901; Rock Island, 1944 \$ 1944; North-Western, 51; @511; do. Preferred, 7112711; Fort Wayne, 1051 2106; Ohio and Mississippi Certificmes, 987 @ 29]: Canton, 462;

Cumberland Coal, 70; The closing week in November upon the Chicago and North-Western Road shows an increase of \$45,000. The month yields an increase of \$165,000—equal to \$914,191. Money is in good demand at 640 per cent, the latter to brokers of fair credit and upon the ordinary collaterals.

In exceptional cases loans are made below 6. In commercial paper no change. Prime short bills sell at 64 27 per cent. Long paper is not in favor, and security rather than high rates of interest governs buyers. The Report of the Treasury Department commends itself to all solvent people, and gives assurance that the Secretary will do all in his power to work back to hard money re-demption. The time give n by him when specie payments can be resumed is suple fa't the purpose, and will probably

Exchange is steedy at the following rates: London, bankers', 60 days, 100; 2109; sight, 110; 2110;; Paris, ong, 5.15@5.13; short, 5.11; 55.11; Antwerp, 5.20@ 5.164; Swiss, 5.20@5.164; Ha nburg, 364@364; Amsterdam, 414@414; Frankfort, 414.0414; Breinen, 790794;

At the Corn Exchange prices to tending downward, and large sales could not be made at quotations.

Preights are firm. The engagema ats to Liverpool are 14,000 bush. Peas at 51@51di; 30a' bales Cotton at 3-16 mld., and per steamer, 300 bales Cotton at 2-16d. Two steamers were chartered to carry Fluur and Grain to Vers Cruz, for account of the French Government, on

The San Francisco Mercantile Gazette of November There has been some abstement in the demand for money area our last reference, and the maturing obligations of the concentile community have been well met. In view of a somewhat tighter rein on the part of the banks, and the appropriate the colors of the control of the control of the control of the control of the colors of

Controller Hillhouse of this State has addressed a letter to Senator Morgan, in favor of the assumption by the General Government of the war debt of the respective States. The Controller argues that these debts were in curred by the States for National purposes, and that they have a right to be reimbursed for their outlays by an appropriation from the common fund. He shows that the existence of the State Governments is as much a matter of right as that of the Union, and that this includes the right of the respective States to control the means for their preservation. The payment by the States of their their preservation. The payment by the States of their war debts, in addition to the heavy burden of taxation imposed by the General Government, would greatly cripple their resources, and impair their ability to aid the nation in future emergencies. Gen. Hillhouse maintains that every consideration of sound policy demands that the Government should remit to the States some particular source of income to be used by them for the express purpose of paying their war debts. He proposes that the income tax, amounting last year to \$60,000,000,should be set apart for this purpose, that amount being sufficient for the object, and not being more than the Government can spare. He states that this plan does not involve the assumption of the State debts by the Federal Government, or their payment in any form by the United States. Each State would simply pay its obligations from its own resources, and the General Government would only suspend the exercise of its jurisdiction over a certain source of revenue for a specified purpose. The adoption of this plan would afford the States an opportunity to defray their indebtedness, an object they are now mable to accomplish without a minous drain upon their resources, the Federal Government having forestabled the States in almost every department of taxation.

The Cinculation Treases of Monday says:

The demand for money is still chiefly for legitimate purposes, and well distributed through the various branches of trade. There is very hitle pages of a specialistic observed many for legitimate purposes. Rates of interest are firm at 40 per cent for unexceptional names, and 12 per cent for good mercantile pages. The rates in the street range from 14 to 14 per cent for unexceptional names, and is per cent for good mercantile pages. The rates in the street range from 14 to 14 per cent of nouth. The brids were still in most cases limiting their favors to depositors, and outside partice meet with but little favors to depositors, and outside partice meet with but little favors to deposito

commencing from the publication of a dae notice.

Gov. Woods has addressed a message to the Oregon
Legislature, recommending legislation to provide for the Legislature, recommending legislation to provide for the construction of a milroad through the Wallamet Valley, and by way of Oakhand, Roseberg, Jacksonville and Yreka, to and connecting with the Central Pacific Railroad in California—thus putting the capital of Oregon in direct communication with San Francisco. A company is ready to build the road if the Legislature will help them.

THE MARKETS.

[Carefully reported for Tax Tainuss.]

This har, Dec. 4, 1866.

Since the date of our last weekly review a more cheerful feeling has characterized our market generally though we have to note a further occline in Broadstorfa and Provisions, which has attimulated a more active demand for export and but for the material advance in freights and variable news from Europea large business would have been done. An easier money market has contributed to the improvement, and, as canal usarigation will close on the 18th inst. we have had a comparatively dull market though large sales of Copper are reported. Old ruled dall, and have declined. Naval Stores are generally every. Roins are in good supply and officed very freely at a decline, but business is restricted by the advance in freights and security of suitable vessels. The Wood market is very dall, prices are heavy, and tending downward.

ASHES—The domand for Pore has been fair and the market firm at \$9.750 fee. Pearls are nominal at \$14.0.814.50.

BHICKS are without telement. We quote at \$20.00 at 50.00 for Common Hard, \$22.850 for Common Lard, \$

COTTON-The demand has been moderate and prices re-

fair to prime.

COTYNN—The demand has been moderate and prices remain about the same. At the moment there is buffittle disposition to operate to an extent exceeding tunedista wants, asles of 1.180 being observed one shalf for subment and the bolssine in small lots to spinors. We quote Middling Uplants at 3540 blee, and do. New-Orleans at Advices.

COFFEE—The market for Brazil Coffees remains that, and with an increasing supply and transversible advices from the producing districts prices are lower and heavy. A sale of 2.70 begs fit or Guiding Star is reported to day at the 150-g cold in bond. Advices from Rio Janeiro to Nov. S. via Livope and the cable, are as follows: Purchases for the United States 40,000 hags of which 30,000 are for New York. Stock at date 90,000 bags. Price for good First R. 6.209. Evchange 24d Messrs. Wurdscott & Sona make the stock of Rio 61,007 bags including 4,000 ft. New Griega, 7,000 at Ballimore, 5nd 50.967 at New York. We quote Rio as follows: Prime 184-888; c. Good, 12 s18; c. 2 str. Frightly, Ordinary, 1034-101; c. and fair to good cargoes 17 s17; c. gold, duty paid, Fair to good cargoes in bond, 125:150. Other styles are rather dull and prices somewhat nominal. We quote at about 25:2-256. for Joyle, for Covin. Frig. 196. for Marscallo 17; c. 196. for Marscallo 17; c

doing at 5: 23. 3 anosths.

CANDLES—Administing are moderately active, and sterly at 425 are 100 c.

COLL—This branch of trade is much depressed, and prices are lower and numbral. Dealers to not agree in prices at the various yards, and by the carryo the last auction prices are not easily obtained. The stock increases daily, and the market closes flat. Foreign is in fair demand, and prices are irregular at the close. The stock of this is moderate.

COPPER—American Lagot is firm and in demand at 274 area for Battimore and Lake; sales of 250,000 aron, on are reported. New Shorthar and Yellow Metal are machanged.

DRUGS AND DYPS—All stricted coming under this heading have been very duit and heavy, and prices are band a declining tendency. We quote:
